### Health New Zealand Te Whatu Ora (Haematology) Join ClinTrial Refer

## Health New Zealand Te Whatu Ora

ClinTrial Refer would like to extend a very warm welcome to Health New Zealand Te Whatu Ora (Haematology) for joining the rapidly growing ClinTrial Refer community!

The Health New Zealand Haematology Clinical Trial Refer app allows both patients and clinicians to search for haematology trials open at Health New Zealand Hospitals. Details of the active and pending trials available by site location, with contact details for enquiries via email. Given the specialist nature of blood cancers, it is best for patients to discuss clinical trial options with their treating haematologist.

Clinicians can use the Health New Zealand Haematology Clinical Trial Refer app to help identify whether a potentially suitable trial option is available at a Health New Zealand public hospital.

Download the ClinTrial Refer App or visit the [website](#) to search for clinical trials today.

## Welcome to The Dementia Centre, Hammond Care

# The Dementia Centre.

HammondCare h.

We warmly welcome The Dementia Centre, Hammond Care to the ClinTrial Refer community and look forward to them sharing studies in the ClinTrial Refer platform so that people who need access to options can find them.

30 years ago, Hammond Care built the first purpose built dementia cottage based on principles designed to improve the physical and social environment for people living with dementia. And The Dementia Centre was born.

The Dementia Centre leads and collaborates in multidisciplinary research to make a positive impact on people living with dementia, their families and the people who care for them.

Their world-leading research is focused on improving the quality of life and quality of care for people living with dementia.

They are investigating the effectiveness of new drug treatments for people with dementia and related conditions to find new treatments for Alzheimer's disease and dementia.

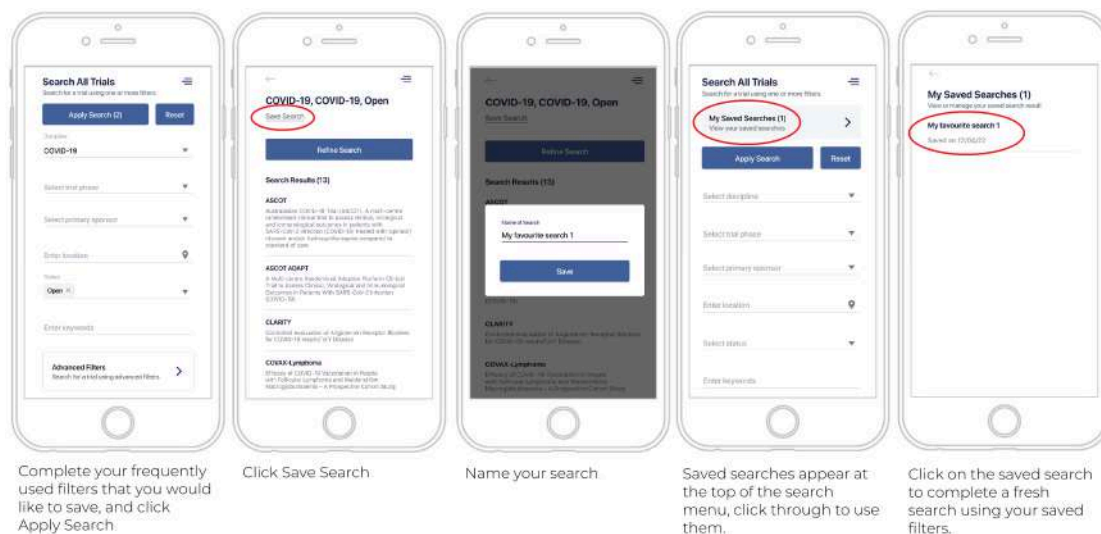

Taking part in clinical trials is free, voluntary and may provide early access to potential new treatments in Alzheimer's disease and dementia.

## Saved Searches Can Save You Time!

Did you know you can 'Save Searches' in the ClinTrial Refer App? If you are a new user to ClinTrial Refer you might not be familiar with this feature. Saved searches are great time savers for frequently-used search filters. Each time you use a saved search it will complete a fresh search of the trial listings without needing to re-enter your search criteria. You can also name your searches! Follow the instructions below.

## A Message From The Concord Clinical Research Team

Concord Repatriation General Hospital Department of Haematology is a valued member of the ClinTrial Refer community! It is also part of Concord Cancer Centre and is now one of the largest, most rapidly growing, Clinical Trials Units in Australia – and the largest clinical research unit for blood cancers in NSW. They conduct world-leading, patient-centered clinical trials to access and develop innovative therapies to treat patients with Leukaemia, Lymphoma, Myeloma and other blood disorders – cutting-edge research which evaluates the safety and benefits of new medicines.

If you would like to support world-leading blood cancer clinical trials, The Foundation for a Bloody Great Cause is hosting a gala dinner on Oct 18 or you can purchase a raffle ticket, or make a donation! The fundraising target is \$200, 000. All proceeds go towards the life-saving work at the world-leading Haematology Clinical Research Unit at Concord Hospital.
